### LEADER-forum Österreich Network

**LEADER-forum** was founded in 2015. It is an independent and voluntary association of LEADER action groups (LAG) in Austria.

Committed to the development and strengthening of LEADER and its participatory bottom-up approach.

The chairwoman / chairman and their management represents the LAG in the LEADER forum.

It provides a stable structure which enables seamless communication at EU and national level in both directions (from the LAG to administrative institutions and from the administration level to the LAGs).

It creates the possibility for official and consistent representation of the LEADER regions in committees, hearings and working groups at national and international level.

It strengthens cooperation between the regions and cooperation with parent networks and also provides a voice for the LEADER action groups in the creation of work packages or new programme planning documents.

It is a committee, at implementation level, for agendas around the LEADER approach in Austria.
