## The Hellenic Network of LAGs

The Hellenic Network of LAGs, was an initiative of the Hellenic LAGs that implemented LEADER I, in 1992-1995, The Network evolved in LEADER II, and during the LEADER+ period it was represented by a Lead LAG Partner and it had semiannual assemblies, and a regional steering committee. In the present period the Network is undergoing a transformation to a legal entity, that will implement activities of a wide range assisting its members, the Managing Authorities and mainly diffusion of information, networking, cooperation and knowledge transfer.

Initially the network aimed at the animation and information of the population about EU LEADER initiative, and as the initiative evolved in time the network added goals such as the efficient transfer of knowledge, cooperation, technical assistance, policy making, capacity building, evaluation of results etc. The network in its current form is planning strategies on a wide range of Local Development issues and acts as a focus group for the Hellenic LAGs and FLAGs, in close cooperation with the National Rural Network, representing the rural territories of Greece in National and international Forums.
